Carbon Reduction Plan

Commitment to achieving Net Zero

Repton Medical Ltd is committed to achieving Net Zero emissions by **2040**.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: Jul 2022 – Jun 2023	
No previous reporting and current year reporting is submitted	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO2e)
Scope 1	0.0
Scope 2	2.5
Scope 3	10.7
(Included Sources)	
Total Emissions	13.2

Current Emissions Reporting

Reporting Year: Jul 2023 – Jun 2024	
EMISSIONS	TOTAL (tCO2e)
Scope 1	0.0
Scope 2	3.5
Scope 3	8.2
(Included Sources)	
Total Emissions	11.7

Next Reporting Period (Jul 2024 – Jun 2025) = To be published July 2025

Emissions reduction targets

There is no previous emissions reduction commitment for our organisation and so the below has been identified as the best ways to reduce emissions for Repton Medical. As of the baseline report, these improvements are currently being worked on and will be held under review, with new commitments added as ways to reduce emissions have been identified.

Installing LED Lighting

Current lighting will be replaced with LED lighting, this may take the form of replacing the whole lighting fixture, or replacing the bulbs with LED ones once the current bulbs expire.

Materials

Sourcing alternative materials for some of products where this can be achieved. This includes the packaging materials that the products arrive in. Other initiatives will be added to the list when available.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

As this is the baseline year, reductions are currently being worked on and identified where required.

In the future we hope to implement further measures such as:

Installing LED Lighting

Alternative Products/Materials

Use of Renewable Energy

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

A handwritten signature in black ink, appearing to read 'Richard Burton', with a large, stylized flourish above the name.
